Passionate Developer & Aspiring IT Professional

Computer Science undergraduate with hands-on experience in building web and application-based projects. Comfortable working with UI development, API integration, databases, and core programming concepts like data structures and problem-solving. Looking to start my career as a Graduate Engineer Trainee, where I can contribute to real-world projects while learning industry best practices.

WORK EXPERIENCE

Jabsz Gaming Studio • Remote • 05/2025 - 07/2025

Web Development Intern • Internship

- Implemented UI components and integrated frontend logic with backend APIs for a browser-based game.
- Collaborated with cross-functional teams to gather requirements and deliver features within deadlines.
- Used Git-based workflows (Kanban boards, pull requests, issue tracking) to manage development cycles.
- Debugged and resolved functional and performance issues to improve application stability.
- Documented workflows and ensured clear communication between technical and non-technical stakeholders.

PROJECTS

FullStack Blog App

Developed a full-stack blogging application using React.js and Appwrite, implementing user authentication, CRUD operations, and responsive UI. Integrated REST APIs, managed relational-style data, and ensured clean separation between presentation and business logic

CryptoTracker

Implemented third-party API integration (CoinGecko) and data visualization dashboards using React and Chart.js.

Fitness Tracker App

Developed a Fitness Tracker App using Flutter and Hive for real-time step tracking and data visualization.

Indian Sign Language Translator

Built an Indian Sign Language Translator using Python, OpenCV, and Mediapipe for hand detection.

AI Agentic Job Application Pipeline (MCP-based)

Built an automation system using Python and APIs to streamline job application workflows, focusing on backend logic, API orchestration, and system integration.

SKILLS

Languages:

- Java
- JavaScript
- Python
- C++
- Dart
- SQL

Web & Application Development

- HTML
- CSS
- React.js
- Express.js
- Node.js
- React Native
- Flutter

Databases

- MongoDB
- MySQL

Cloud & Services

- Firebase
- Appwrite

Dev Tools

- Git
- VSCode

Core Concepts

- Data Structures & Algorithms
- OOPS

EDUCATION

XII in ICSE Board

Seth Anandram Jaipuria School
Kanpur
GPA: 78.5%
03/2021 - 03/2022

VOLUNTEERING & LEADERSHIP

Little Seeds Ngo • 09/2024 - 09/2024

Teaching Internship

Contributed to the NGO's mission by fostering education and skill development in young learners. Designed engaging activities to enhance learning retention and creativity. Conducted interactive sessions to teach basic mathematics, drawing, and problem-solving to underprivileged children.

X in ICSE Board

Seth Anandram Jaipuria
School

Kanpur

GPA: 85%

03/2018 - 03/2019

**B.Tech in Computer
Science & Business
Systems**

Amity University

Noida

GPA: 7.24
